LONG STORY SHORT:

PRESENT:

Showcasing your service in notes, quickly

Documentation?!? This isn't part of my grad school program! We are learning how to memorize all the Theories and become a Pro at role-playing with a hypothetical client, but learning how to write a progress note is not on my course schedule.

Training Objectives:

- Understand the Purpose of Documentation
- How to Document with Integrity
- Utilize Audit Proofing Validation Measures as a Tool for Success
- Build-Your-Own Intervention Formula

Training Materials Provided:

- Intervention Action Words
- Progress Note Guide
- Over 50+ Intervention Examples

This is a foundational course that meets criteria towards **Certification for NASW-CA Documentation Integrity**. Attendees will receive proof of attendance. NASW-CA and SSYF are committed to diversifying the behavioral health field and invite providers that represent BIPOC and marginalized communities to join us without cost. Fees should not act as a barrier and we invite you to apply for a scholarship as needed.

Scholarship form is available here: <https://bit.ly/3myfew9>
