

# INTRODUCTION TO PSYCHEDELICS FOR MENTAL HEALTH (2 CEU)

FEBRUARY 11, 2023 | 10 AM – 12 PM PT | VIRTUAL

Contact: [mespitia.naswca@socialworkers.org](mailto:mespitia.naswca@socialworkers.org)

Learn the benefits of psychedelic medicine to treat mental health, and how to provide direct client care using psychedelic interventions.

MEMBER: \$15

NONMEMEBER: \$30

STUDENT MEMBER: \$5

## COURSE OBJECTIVES

- Receive a general overview of the use of ketamine as a psychedelic medicine to help treat mental health disorders including depression, anxiety, and PTSD.
- Understand the basic components of current psychedelic assisted therapy practices, including the ethics of psychedelic assisted therapy.
- Contemplate the areas of social work, including micro, mezzo and macro, in which psychedelics play a role in.
